

CHC Films is the exclusive distributor in SA for Exxon-Mobil. It is also the appointed agent and distributor of Forbo Bonding Systems.

ExxonMobil Films		Biaxially Oriented Polypropylene Film (BOPP)
Flexible Packaging	Description	
Bicor	Clear	Coated & Uncoated, available in various microns, suitable for many packaging and laminate applications. Coatings include humidity resistant, anti-static, acrylic, LTS, PVdC, PVOH, Antimist
	Metallisable	Clear Bicor with treated layer for metallising
	Tobacco	Coated & Uncoated, shrinkable, heat sealable
	Single Web	Thicker micron coated films to replace laminate structures
Oppalyte	White, Opaque	Coated & Uncoated, suitable for various packaging machines, single web or laminate structures
	Single Web	Thicker micron coated films to replace laminate structures
Digilyte	White	Coated film for printing with Indigo, Omnius Colour Press
	Transparent	One side coated for Indigo electro-ink printing
Metallyte	Metallised	Standard, medium and high barrier films
	White / Metallised	One side white, one side metallised
	Ultra High Barrier	White metallised, high performance
Twistlyte	Transparent	Non-sealable bi-axially orientated HDPE
	Metallisable	Non-sealable film for metallising
	Transparent Coated	Two side acrylic coated
	Metallised	Coated & Uncoated
Hicor	Slip Modified Film	Orientated HDPE with outstanding dead-fold and machinability
	Metallisable	Metallisable orientated HDPE
	Metallised	Metallised orientated HDPE, outstanding dead-fold and machinability
Labelling		
Label-Lyte	Reel Fed	White & Clear for wrap around applications, various microns and densities available
	Roll-on-Shrink-on (Roso)	Transparent, machine direction shrink OPP film for wrap around application
	Metallised	One side white, one side metallised for superior graphics
Lithor	Anti Static Range	Coated & Uncoated suitable for Cut & Stack wrap around applications
Self Adhesive	White	High yield excellent opacity, top coated with versatile printable coating. Matt adhesive receptive coating applied on reverse
	Transparent	Top coated with water based versatile printable coating, adhesive receptive coating on reverse. Squeezable version available
Digilyte	Digital Printing	White & Clear coated films suitable for Indigo electro-ink printing
Dow Automotive (Direct glazing adhesive)		
Activator	Betawipe	
	Betaclean	
Primer	Betaprime	
Polyurethane	Betaseal	
	Betaseal Quick kit	
Applicators	wires	
	felts	
	heads	
	bottle	
Forbo Bonding Systems		
Full range of Water Based, Solvent, Solvent Free & Hot Melt adhesives		
Markets include	Book Binding	
	Automotive	
	Refrigeration Panelling	
	Shoes	
	Textiles	
	Labeling & Packaging	
	Furniture & Bedding
